We quote at 74a8, with an upward left for the city to notify the proprietor, the roof of the main building had fallen in. No particulars are known at this time of the origin of the fire. The building and machinery, with the stock in the mill, were worth about RATES OF EXCHANGE, UNCURRENT FUNDS, &c \$40,000. They were insured in the Tennessee Marine and Fire Insurance office of this city for \$8,000, and in the State Mutual of Pennsylvania at Harrisburg for \$6,000.

The destruction of this establishment will prove a great calamity to the newspaper publishers in Middle Tennessee and elsewhere .-Many of them were almost entirely dependent upon Mr. Whiteman for supplies. We believe there is enough paper ahead to supply the city custom for about two months.

Mr. Whiteman had just completed extensive improvements, and had a new machine in operation which cost about \$12,000. The loss will be a severe one upon him; but we have reason to believe, from a knowledge of the character of the man for energy and resources, that he will speedily repair the damage and go shead again.

STEALING. - The Recorder has issued several warrants in the last few days for the discovery of stolen property. Some one or two small fry, six by nine, grocery houses have been poarched with success. Negroes and white w men are implicated in these petty depredations. People should be careful how they leave things lying around loose.

"Cincus Women."-A poor dented laborer called for a search warrant for some "circus women" who were pursuing him night and day, waking and sleeping. He was furnished with the papers and went off in search of the enemy.

ATTEMPT TO BRAKE JAIL .- A well arrang-S. H. PARVIN, newspaper and advertising agent, ed and nearly successful attempt to brake jail was accidently discovered yesterday morning. It was made by that notorious pair Graham Brown's Iron Building, Philade phia, is our only authorized and Taylor, whose names have figured in the criminal records of the city for about two years past. They have been sentenced twice to the Penitentiary, and appealed in both instances. A negro man walking on the bank of the river immediately under the jail, accidentally looking up at the grim walls of that un wholesome edifice, imagined that he saw one of the rocks projecting. He went to the jailor and called his attention to the circomstance. Upon entering the cell it appeared that everything was in readiness for a delivery. A GRAND MASS MEETING of the AMERICAN PAR. The rock was loosened by removing the plaster and surrounding rocks, which they had snugly hid under their bed to the amount of nearly two tons. By a mere accident all their labor went for naught. Graham declares that he has been engaged in this work for nine weeks, and would have escaped on Wednesday morning but he did not get at work until about 8 o'cleck, The Umprie from Paducah arrived yesterday, and daylight overtook him. The only reward for their labor was a present from the jailor of some ornamental wristbands.

RICHMOND, July 9th, 1855. Messrs. WM. S. Bress & Co., Gents .- Considerations of duty to the afflicted alone prompt me to send you this vol-untary testimonial to the great value of "Carter's Spanish Mixture," for that almost incurable disease, Scrofula. Without being disposed or deeming it necessary to go in o the particulars of the case, I can say that the astonish ing results that have been produced by the use of that medicine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted and all the usual remedies had filled, fully justify me in recommending its use to all who may be suffering from that dreadful malady. I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases; for, occurse, I can know nothing about that—but from what have seen of the effects, I would not hesitate to use it, in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or Respectfully yours, JON.
